Barcode scanner: - Our general-purpose barcode scanners are designed to meet a wide range of scanning needs, applications and budgets. These tough barcode scanners combine industry-leading data capture technology with an exterior virtually impervious to damage as well as speed that will make a difference in your business.		
Barcode printer:- Barcodes, Inc. has a full line of Zebra Printers to meet your organizations printing demands Whether you need a Direct Thermal Barcode Printer to print shipping labels for your transportation department or Thermal Transfer Barcode Printers to create ideal inventory labels and asset labels. Zebra printers are designed for a wide variety of applications, from small desktop printers like the GK420T, to larger industrial printers like the ZT410 and agile rugged mobile printers, the QLN420. Zebra has the barcode printer to meet your needs in any application or environment.		
Wrist Band Wristbands are encircling strips worn on the wrist or lower forearm. The term can be used to refer to a bracelet-like band, similar to that of a wristwatch, to the cuff or other part of a sleeve that covers the wrist, or decorative or functional bands worn on the wrist for many different reasons. Wristbands are often worn and used similarly to event passes such as lanyards to		

information or allow people entry to events. Wrist Band Printer:- The Wasp WHC25 direct thermal wristband printer is designed to meet the needs for healthcare patient identification, hospitality, and event ticketing applications. Using direct thermal print technology, the WHC25 is a cost effective solution for printing barcoded wristbands that stand up to the rigors of hospital and medical office use.

About us

Soori Technology is a Tech company, delivering genuine requested tech solutions for business and organizations. Soori's goal of providing Single Source Total Solution is served by its strategic business units for Hardware, Software, Consumables and Support. This framework enables to deliver high Quality of service in achievement of customer delight. We develop customized solution for Warehouse & Inventory Management, Track & Trace, Asset Management, Logistics, Sales Force Automation, Retail etc. As an authorized and direct partner of world's leading manufacturers in the data collection industry for thermal printers, barcode scanners, Wireless data collection systems and specialized labels, we maintain inventories of equipment, labels, ribbons, and replacement parts, offering almost immediate availability at competitive prices. SOORI TECHNOLOGY Systems is dedicated to provide customers with top quality service, fast delivery and the competitive prices in the market. Taking every requirements of clients into consideration, we aim to deliver quality products with exceptional service. We believe building just a software is not a solution. Being a part of it in its entire journey from inception till the end and being responsive towards post purchase for a client is what creates value. Our iterative work model retains our team, clients and management in a strong loop until we reach a common goal. We have remarkably talented experts and software engineers who guide and lead with examples. Our team of engineers, business experts and artists create a fabulous work environment with a feeling of togetherness. This is what builds Soori technology.

Our mission: -

To contribute in innovative technology while prospering as a high caliber software and hardware company creating numerous opportunities for residents, startups and organizations of Nepal.

Our vision

"Our vision is to create a sustainable tech environment while preparing Nepal and its businesses for upcoming future technologies."
